**Date:** Thursday, August 16, 2018 8:52:55 AM

---

Judges,

As part of the ECAS roll-out, we are seeking a small group of judges from both non-detained and detained courts to review and fine-tune the master calendar function (part of the Judicial Tools application).

The judges selected would:

1. Review OIT design concepts for master calendar management, make recommendations concerning which concept to use, and work with the OIT team to fine-tune the details of the selected design concept so that OIT can finalize and move into development. This will be online (using online demo or screenshots) and will take up to 4-5 sessions between roughly 8/27 and 9/7.
2. Review the final master calendar function and conduct User Acceptance Testing (UAT). It will likely take 8 to 12 hours in one or two weeks in October.
3. Work with OCIJ leadership to communicate the application change to the IJ community.

If you are interested in participating, please respond to me no later than close of business Wednesday, August 22, 2018 with a copy to your ACIJ. We will get back to volunteers shortly thereafter to let you know who was selected to participate. Thank you.

**Christopher A. Santoro**

Deputy Chief Immigration Judge
